

Room for the important.

Findex / Brand guidelines / September 2026

A considered home for everything you keep.

01 Our point of view

Technology should feel like a little less, not a little more.

We make space for your ideas by taking care of the files behind them.

02 Clear, calm, capable

Every interaction has a purpose. Every detail earns its place.

We choose quiet confidence over noise, and clarity over clutter.
